by Thomas C. Michaud : **Human Locomotion: The Conservative Management of Gait-Related Disorders**

ISBN : # | Date : 2014-10-12

Description :

PDF-14a27 | In the course of a year, more than 1.9 million runners will fracture at least one bone and approximately 50% will suffer some form of overuse injury that prevents them from running. Despite the widespread prevalence of gait-related injuries, the majority of health care practitioners continue to rely on outdated and ineffective treatment protocols emphasizing passive interventions, such as anti-inf... *Human Locomotion: The Conservative Management of Gait-Related Disorders*
